SAFETY DATA SHEET
(Europe)

SECTION 1: IDENTIFICATION OF THE MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier:
KOVA® Tube
Product type: Solid
Component: 87137, 87137E, 87138, 87141, 87141M, 87141E, 87153, 87153E, 87154, 87154E, 87155, 87159, 87161, 87161E, 87162, 87162E

1.2. Relevant identified uses of the mixture and uses advised against:
For in vitro diagnostic and professional use. (Plastic Urine Collection Tube).

1.3. Details of the supplier of the safety data sheet:
Kova International, Inc.
7272 Chapman Avenue, Suite B
Garden Grove, CA 92841
United States
Tel: +1-714-902-1700

1.4. Emergency telephone number:
Public Toxicological Health Service (ETTSZ)
1096 Budapest, Nagyvárad tér 2.
Tel.: 06 1 476 6464, 06 80 201 199 (0-24 h)
or
Contact your local poison center.

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the mixture:
Classification according to Regulation 1272/2008/EC (CLP):
Not considered as hazardous mixture.

Warning H statements: None.

2.2. Label elements:
Warning H statements: None.

Precautionary P statements:
P280 – Wear protective clothing.

2.3. Other hazards:
This article, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. However, use or processing of the product in a manner not in accordance with the product's directions for use may affect the performance of the product and may present potential health and safety hazards.

Results of PBT and vPvB assessment: no data available.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substance:
Not applicable.

3.2. Mixture:
Article.

The product does not contain any substances which considered as hazardous, or the concentration of hazardous substances does not reach the extent stated in the relevant regulations. Therefore, it is not necessary to indicate them in the safety data sheet.
SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures:

IN CASE OF INGESTION:

Measures:
- Do not induce vomiting unless directed to do so by medical personnel.
- Never give anything by mouth to an unconscious person.
- Get medical attention if adverse health effects persist or are severe.

IN CASE OF INHALATION:

Measures:
- If inhaled, remove to fresh air.
- If breathing is difficult, give oxygen.
- If not breathing, give artificial respiration.
- Get medical attention if adverse health effects persist or are severe.

IN CASE OF SKIN CONTACT:

Measures:
- In case of contact, immediately flush skin with plenty of water.
- Remove contaminated clothing and shoes.
- Wash clothing before reuse.
- Clean shoes thoroughly before reuse.
- Get medical attention if adverse health effects persist or are severe.

IN CASE OF EYE CONTACT:

Measures:
- In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
- Get medical attention if adverse health effects persist or are severe.

4.2. Most important symptoms and effects, both acute and delayed:

No data available.

4.3. Indication of any immediate medical attention and special treatment needed:

No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media:

5.1.1. Suitable extinguishing media:
Choose extinguishing media depending on surrounding fire.

5.1.2. Unsuitable extinguishing media:
None known.

5.2. Special hazards arising from the substance or mixture:
In case of fire, carbon oxides may be formed, the inhalation of such combustion products can have serious adverse effects on health. Material in powder form, capable of creating a dust explosion.

5.3. Advise for fire fighters:
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures:

6.1.1. For non-emergency personnel:
Keep unprotected people away, allow only well trained experts wearing suitable protective clothing to abide in the field of accident.

6.1.2. For emergency responders:
Do not touch or walk through spilt material.
Provide adequate ventilation.
Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions:
Dispose the spillage and the resulting waste according to the applicable environmental regulations. Do not allow the product and the resulting waste to enter sewers/soil/surface or ground water. Notify the respective authorities in accordance with local law in the case of environmental pollution immediately.

6.3. Methods and material for containment and cleaning up:
Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.

6.4. Reference to other sections:
For further and detailed information see section 8 and 13.
SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling:
Observe conventional hygiene precautions.
Wash thoroughly after handling.
Technical measures:
No special measures required.
Precautions against fire and explosion:
No special measures required.

7.2. Conditions for safe storage, including any incompatibilities:
Technical measures and storage condition:
Store between the following temperatures: 20 to 27°C (68 to 80.6°F).
Store in accordance with local regulations.
Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink.
Keep container tightly closed and sealed until ready for use.
Containers that have been opened must be carefully resealed and kept upright to prevent leakage.
Do not store in unlabelled containers.
Use appropriate containment to avoid environmental contamination.
Incompatible materials: see section 10.
Packaging material: original container recommended.

7.3. Specific end use(s):
For *in vitro* diagnostic and professional use.

SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.1. Control parameters:
Occupational exposure limit values:
The components of the mixture are not regulated with exposure limit value.

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

KOVÁ® Tube
8.2. **Exposure controls:**

In case of a hazardous material with no controlled concentration limit it is the employer’s duty to keep concentration levels down to a minimum achievable by existing scientific and technological means, where the hazardous substance poses no harm to workers.

8.2.1 **Appropriate engineering controls:**

In pursuance of work is proper foresight needed to avoid spilling onto clothes and floors and to avoid contact with eyes and skin.

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

8.2.2. **Individual protection measures, such as personal protective equipment:**

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Appropriate techniques should be used to remove potentially contaminated clothing.

Wash contaminated clothing before reusing.

Ensure that eyewash stations and safety showers are close to the workstation location.

1. **Eye/face protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dust (EN 166).

2. **Skin protection:**
   a. Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary (EN 374).
   b. Other: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

3. **Respiratory protection:** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

4. **Thermal hazard:** None known.

8.2.3. **Environmental exposure controls:**

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

The requirements detailed in Section 8 assume skilled work under normal conditions and usage of the product for appropriate aims. If conditions differ from normal or work is carried out under extreme conditions an expert’s advice should be sought out before deciding upon further protective measures.

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

9.1. **Information on basic physical and chemical properties:**

9.2. **Other information:**
Specific gravity: >1 g/cm³

**SECTION 10: STABILITY AND REACTIVITY**

10.1. **Reactivity:**
None known.

10.2. **Chemical stability:**
Stable within normal temperature and general work conditions.

10.3. **Possibility of hazardous reactions:**
Under normal conditions of storage and use, hazardous polymerisation will not occur.

10.4. **Conditions to avoid:**
No data available.

10.5. **Incompatible materials:**
Oxidizing materials.

10.6. **Hazardous decomposition products:**
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**SECTION 11: TOXICOLOGICAL INFORMATION**

11.1. **Information on toxicological effects:**
Acute toxicity: none known.
Skin corrosion/irritation: none known.
Respiratory or skin sensitisation: none known.
Germ cell mutagenicity: none known.
Carcinogenicity: none known.
Reproductive toxicity: none known.
STOT-single exposure: none known.
STOT-repeated exposure: none known.
Aspiration hazard: none known.

11.1.1. For substances subject to registration, brief summaries of the information derived from the test conducted:
No data available.

11.1.2. Relevant toxicological properties of the hazardous substances:
No data available.

11.1.3. Information on likely routes of exposure:
Ingestion, inhalation, skin contact, eye contact.

11.1.4. Symptoms related to the physical, chemical and toxicological characteristics:
No data available.

11.1.5. Delayed and immediate effects as well as chronic effects from short and long-term exposure:
No data available.

11.1.6. Interactive effects:
No data available.

11.1.7. Absence of specific data:
No information.

11.1.8. Other information:
No data available.

**SECTION 12: ECOLOGICAL INFORMATION**

12.1. **Toxicity:**
No known significant effects or critical hazards.

12.2. **Persistence and degradability:**
No data available.

12.3. **Bioaccumulation potential:**
No data available.

12.4. **Mobility in soil:**
No data available.

12.5. **Results of PBT and vPvB assessment:**
No data available.

12.6. **Other adverse effects:**
No data available.
SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods:
Disposal according to the local regulations.

13.1.1. Information regarding the disposal of the product:
The generation of waste should be avoided or minimised wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

European Waste Code:
For this product no waste disposal key according the European Waste Catalogue (EWC) can be determined, as only the purpose of application defined by the user enables an allocation. The European waste code number has to be determined after a discussion with a specialist dealing with waste disposal.

13.1.2. Information regarding the disposal of the packaging:
Dispose according to the relevant regulations.

European Waste Code:
15 01 02 plastic packaging

13.1.3. Physical/chemical properties that may affect waste treatment options shall be specified:
None known.

13.1.4. Sewage disposal:
None known.

13.1.5. Special precautions for any recommended waste treatment:
No data available.

SECTION 14: TRANSPORT INFORMATION

Not dangerous good in sense of the transport regulations.

14.1. UN Number:
None.

14.2. UN proper shipping name:
None.

14.3. Transport hazard class(es):
None.

14.4. Packaging group:
None.

14.5. Environmental hazard:
No relevant information available.

14.6. Special precautions for user:
No relevant information available.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code:
Not applicable.

SECTION 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture:

15.2. Chemical safety assessment:
No information available.
SECTION 16: OTHER INFORMATION

Information regarding the revision of the safety data sheet:
The safety data sheet has been revised according to Regulation 830/2015/EU (Section 1-16).
The classification of the components and the mixture have been amended according to Regulation 1272/2008/EC (CLP) and its amendments.

Full text of the abbreviations in the safety data sheet:

Data sources:
Safety data sheet previously issued by the manufacturer was on March 6, 2015.

Methods used for the classification according to Regulation 1272/2008/EC: Not considered as hazardous mixture.

Relevant H-Phrases (number and full text) of Section 2 and 3: None.

Training advice: No data available.

This safety data sheet (SDS) had been prepared on the basis of information provided by the manufacturer/supplier and conform to the relevant regulations.

The information, data and recommendations contained herein are provided in good faith, obtained from reliable sources and believed to be true and accurate as of the date issued. However, no representation is made as to the comprehensiveness of the information. The safety data sheet (SDS) shall be used only as a guide for handling the product; in the course of handling and using the product, other considerations may arise or be required.

Users are cautioned to determine the appropriateness and applicability of the above information to their particular circumstances and purposes and assume all risk associated with the use of this product. It is the responsibility of the user to fully comply with local, national and international regulations concerning the use of this product.
